BIOMETRIKA

FOUNDED BY
W. F. R. WELDON, FRANCIS GALTON AND KARL PEARSON

MANAGING EDITOR
E. S. PEARSON

ASSOCIATE EDITOR
M. G. KENDALL

VOLUME 44

1957

ISSUED BY
THE BIOMETRIKA OFFICE, UNIVERSITY COLLEGE, LONDON
PRINTED AT THE UNIVERSITY PRESS, CAMBRIDGE

PRINTED IN GREAT BRITAIN

CONTENTS OF VOLUME 44

Memoirs and Miscellanea

PAGE

AITCHISON, J. and SILVEY, S. D. The generalization of probit analysis to the case of multiple responses 131

ANSCOMBE, F. J. Dependence of the fiducial argument on the sampling rule . 464

ARMITAGE, P. Restricted sequential procedures 9

BARTHOLOMEW, D. J. Testing for departure from the exponential distribution . 253

BARTLETT, M. S. On theoretical models for competitive and predatory biological systems 27

BARTLETT, M. S. A note on tests of significance for linear functional relationships 268

BARTLETT, M. S. A comment on D. V. Lindley's statistical paradox 533

BARTON, D. E. and DAVID, F. N. Multiple runs 168

BARTON, D. E. and DAVID, F. N. *Corrigenda* to above 534

BERKSON, J. Tables for use in estimating the normal distribution function by normit analysis. Part I. Description and use of tables. Part II. Comparison between minimum normit χ^2 estimate and the maximum likelihood estimate 411

BROWN, R. L. Bivariate structural relation 84

BULMER, M. G. Approximate confidence limits for components of variance . . 159

COHEN, A. C. On the solution of estimating equations for truncated and censored samples from normal populations 225

COOPER, B. E. The effect of ties on the moments of rank criteria 526

COX, D. R. The use of a concomitant variable in selecting an experimental design 150

COX, D. R. *Corrigenda* to above 534

COX, D. R. and SMITH, W. L. On the distribution of *Tribolium confusum* in a container 328

CURNOW, R. N. Heterogeneous error variances in split-plot experiments . . 378

DARWIN, J. H. The difference between consecutive members of a series of random variables arranged in order of size 211

DARWIN, J. H. The power of the Poisson index of dispersion 286

DAVID, F. N. (*See* BARTON, D. E.)

DAVID, H. A. Estimation of means of normal populations from observed minima 282

DOIG, ALISON. A bibliography on the theory of queues 490

DURBIN, J. Testing for serial correlation in systems of simultaneous regression equations 370

FIELLER, E. C., HARTLEY, H. O. and PEARSON, E. S. Tests for rank correlation coefficients. I 470

FOLKS, J. L. (*See* GRAYBILL, F. A.)

FOSTER, F. G. and REES, D. H. Upper percentage points of the generalized beta distribution. I 237

FOSTER, F. G. Upper percentage points of the generalized beta distribution. II 441

GNANADESIKAN, R. (*See* ROY, S. N.)

GOOD, I. J. *Corrigenda* to 'The likelihood ratio test for Markoff chains' . . 301

PAGE

GRAYBILL, F. A. and FOLKS, J. L. Heterogeneity of error variances in a randomized block design 275

GURLAND, J. Some interrelations among compound and generalized distributions 265

HAIGHT, F. A. Queueing with balking 360

HALDANE, J. B. S. *Centenary Lecture: Karl Pearson, 1857–1957* 303

HANNAN, E. J. Testing for serial correlation in least squares regression . . 57

HARLEY, B. I. Relation between the distributions of non-central t and of a transformed correlation coefficient 219

HARLEY, B. I. Further properties of an angular transformation of the correlation coefficient 273

HARLEY, B. I. and PEARSON, E. S. The distribution of range in normal samples with $n = 200$ 257

HARRIS, A. J. A maximum-minimum problem related to statistical distributions in two dimensions 384

HARTLEY, H. O. (*See* FIELLER, E. C.)

HASKEY, H. W. Stochastic cross-infection between two otherwise isolated groups 193

JOHNSON, N. L. Sequentially determined confidence intervals 279

JOHNSON, N. L. Uniqueness of a result in the theory of accident proneness . . 530

JOHNSON, N. L. A note on the mean deviation of the binomial distribution . 532

JOHNSON, N. L. Optimal sampling for quota fulfilment 518

JOWETT, G. H. Statistical analysis using local properties of smoothly heteromorphic stochastic series 454

KAMAT, A. R. (*See* SATHE, Y. S.)

KENDALL, M. G. Studies in the history of probability and statistics. V. A note on playing cards 260

KENDALL, M. G. The moments of the Leipnik distribution 270

KULLBACK, S. and ROSENBLATT, H. M. On the analysis of multiple regression in k categories 67

LANCASTER, H. O. Some properties of the bivariate normal distribution considered in the form of a contingency table 289

LESLIE, P. H. An analysis of the data for some experiments carried out by Gause with populations of the protozoa *Paramecium aurelia* and *Paramecium caudatum* 314

LINDLEY, D. V. Binomial sampling schemes and the concept of information . 179

LINDLEY, D. V. A statistical paradox 187

MACKENZIE, J. K. and THOMSON, M. J. Some statistics associated with the random disorientation of cubes 205

MALLOWS, C. L. Non-null ranking models. I 114

MOORE, P. G. The two sample t-test based on range 482

PAGE, E. S. On problems in which a change in a parameter occurs at an unknown point 248

PALMER, D. S. The distribution of intervals between successive maxima in a series of random numbers 524

PATIL, V. T. The consistency and adequacy of the Poisson-Markoff model for density fluctuations 43
